

Good Evening

As we begin our second week of learning from home & social distancing – Monongalia County Schools would like to provide you with some updates.

Please know that our staff – would much rather be at school with their students! We miss everyone of them from the little 3-year olds to the seniors!

Here are a few things to know as we go into this week:

All school buildings – including the board office and annexes, are closed. Please call or email.

Our child nutrition program will continue to provide Grab & Go meals – for all Mon County students up to the age of 18. The change – beginning tomorrow – is that Grab & Go will only be available at the high school locations – Morgantown High, University High and Clay Battelle High.

Lunch deliveries will continue by our transportation staff. Please check the website for locations and times near you. These deliveries are for Mon County students up to the age of 18.

Students need to take extra good care of their chromebooks – because we not be able to fix or exchange anymore due to social distancing.

Everyone should continue as best they can on their Arctic Academy lessons.

Keep in mind this is a time for families to spend time together – let's look at the silver lining. And remember to continue to follow the recommendations of the CDC.

Together we are Monongalia County strong – and we can't wait to get back together!

Stay safe and healthy!
